Our Priorities:

Safety, Security, Quality, Cost, and Schedule

ISO 14001:2015 AGS-certified Environmental Management System (EMS)

ISO 9001:2015 AGS-certified Quality Management System (QMS)

WHO WE ARE AND WHAT WE DO

Continental Maritime of San Diego is a certified Master Ship Repair Agreement (MSRA) holder with the United States Navy. We maintain cost-effective, sustainable shipyard operations and contract administration through the application of:

- Successful organizational and management techniques
- Skilled workforce of ship repair professionals
- Integrated planning, scheduling, and testing procedures
- Comprehensive environmental, health and safety management programs
- Fully-integrated Information Technology
- Internationally known full service ship yard

PROVEN SHIPYARD EXPERIENCE

Continental Maritime of San Diego is one of the principal Master Ship Repair providers to the U.S. Navy, having completed hundreds of ship repair contracts for the Navy and Military Sealift Command including Regular Overhaul (ROH), Selected Restricted Availability (SRA), and Dry-dock SRA (DSRA). We perform emergent repairs on all types of major vessels including CVN, CG, DDG, LHD, LHA, LSD, LPD, and auxiliary ships. Tasks include repairs and alterations to a wide range of Combatant Systems (CS), Hull, Mechanical, and Electrical (HM&E) and Habitability.

CAPABILITIES

- Inside and outside machinery repair, machine shop, electrical shop, metal fabrication, pipe fabrication, boiler repair and rigging shop
- Large open work areas
- Industrial repair, fabrication, installation, paint, insulation, rigging and crane services
- Commercial/ MIL-SPEC marine coating - SSPC QP-1
- Certified coating inspection, NACE level III
- ABS and NAVSEA certified welders and weld procedures
- NAVSEA certified weld inspection
- Nondestructive testing: VT, MT, and PT
- Tank cleaning, bilge cleaning, waste water hauling, hazardous material and industrial waste containment and collection
- Piping system flushing and solvent cleaning, CHT and boiler hydro-blasting 3,000 lbs. to 10,000 lbs.
- Installation and repair of all marine (shipboard) equipment
- CNO availability execution and mgmt.

Full Service Ship Repair and Conversion

Pipe Fabrication and Boiler Repair

- Certified Welding Processes
 - Shielded Metal Arc Welding
 - Gas Tungsten Arc Welding
- Materials
 - Steel
 - Aluminum
 - Copper nickel
 - Inconel
 - Stainless steel
- Brazing of copper nickel and bronze
- Pipe bending through 6 in. schedule 80
- Hand and automatic threading machines
- All boiler repairs and hydrostatic testing

Metal Fabrication/Sheetmetal

- Certified Welding Processes
 - Shielded Metal Arc Welding (SMAW)
 - Gas Tungsten Arc Welding (GTAW)
 - Gas Metal Arc Welding (GMAW)
 - Flux Cored Arc Welding (FCAW)
 - 5xxx capabilities
- Materials
 - Ferrous
 - Stainless steel
 - Steel
 - HY-80/100
 - High Strength Low Alloy
 - Nonferrous
 - Aluminum (including 5xxx)
 - Copper nickel
- Metal Forming and Cutting
 - Brakes to 400-ton
 - Shear to ½ in. x 12 ft.
 - Iron worker to 100-ton
- Fabrication
 - Countertops

- Foundations
- Tanks
- Ladders
- Ventilation ducting
- HVAC system testing / balancing habitability
- High pressure laminate
- Stainless steel
- Bulkheads

Paint

- Coating and abrasive blasting
- SSPC- QP 1 certified
- Certified C-7 blasters
- Certified C-12 and C-14 painters
- NACE Level 3 coating inspectors
- NBPI coating inspectors
- Polymer coating certified
- Certified plural component
- Plural component spray
- Abrasive blast equipment
- Spray conventional, airless
- Inside blast booth 18' x 39'
- Inside spray booth 16' x 39'
- Outside blast area 40' x 120'

Machinery

In-place and shop troubleshooting, repair and overhaul of the following:

- Valves and valve operating systems
- Pumps and pump testing
- Precision alignment
- Diesel engines and components
- Steam turbines and components
- Propulsion systems
- Propeller repair
- Machining
- Overhead cranes

Electrical and Electronic

- Motor and generator repair
- Transformer repair
- Winding varnish tank 3 ft. x 3 ft. x 6 ft.
- Winding testing
 - AC and DC hipot
 - Surge comparison
- In-place vibration analysis
- Dynamic balancing to 2000 lbs. x 80 in.
- Diameter x 48 in. between journals
- Circuit breaker repair and test
- Motor controllers
- Voltage regulators
- Power conversion 60 Hz to 400 Hz
- AC/DC power supplies
- Alarms and sensors
- Intercommunication equipment
- In-place temperature and pressure calibration
 - Thermometers
 - Sensors
 - Transducers
 - Control switches
- Cathodic protection
- Cable assembly and connectorization

Rigging, Crane and Other Services

- Cranes from 30 ton telescopic w/ 100-ft. boom to 110-ton RT SGUH w/ 164-ft. boom
- Dynamometer testing to 50-ton
- Anchor chain testing
 - Weight / Pull Testing

CMSD Recruiting:

We offer a wide variety of jobs from entry-level to highly skilled. Build your career with us!

Equal Opportunity Employer – Veterans/Disabled Welcome
 Excellent company-paid benefits and savings plan
 U.S. Citizenship Required for Some Positions
